

M-394

**DRAIN MAINTAINER/
ODOR ELIMINATOR**

TECHNICAL DATA SHEET

DESCRIPTION

M-394 DRAIN MAINTAINER/ODOR ELIMINATOR is a unique blend of natural citrus extracts and emulsifiers designed to mix readily with water. When diluted, it makes a thick emulsion that cleans, degreases, and deodorizes. It is effective in removing grease, grime, dirt, oil, tar, dyes, carbon, crayon, soot resins, gums, lipstick, and hard soap scum.

HOW TO USE

CLEANING & DEGREASING: Dilute 3-4 ounces per gallon of warm water.

HEAVY DUTY: Dilute 16 oz. per gallon. Apply generously to grease and soil covered surfaces with a sponge or mop. Allow to set for 3 to 5 minutes. Rinse with water.

DRAIN OPENER: Pour 6-8 ounces of product into drain. Allow to stand for one hour. Flush drain with hot water for 3 minutes. **NOTE: DO NOT USE IN PLASTIC PIPES.**

DEODORIZE: Mix 3-4 ounces per gallon of water. Apply with a sprayer to trash cans, bathrooms, dumpsters, etc.

STAIN REMOVAL: Mix 2 ounces per gallon of water and apply to a cloth and wipe towards the center of the spot from the edge.

GREASE TRAPS: Initial Treatment – Use 1 pt. (16 oz.) for each 10 gallons of trap capacity. Let stand for about an hour and flush system with pressure hose and water. Preventative Maintenance – Use 1 oz. per gallon of trap capacity per week.

SPECIFICATIONS

APPEARANCE	Orange liquid
FRAGRANCE	Citrus
SPECIFIC GRAVITY	0.840 ± 0.005
DENSITY	7.01 ± 0.05 lb/gal
BOILING POINT	340-370°F
pH	N/A ± 0.5
FLASH POINT	110°F
STABILITY	One year minimum
